WAYPOINT PROCESSING

We aren't just a processing facility; we are a hub for Michigan owned & grown brands to tell their stories, and to carefully curate their visions that are developed and proudly packaged in Bangor, Michigan.

Combining science with the art of cannabis, Waypoint's roots are in engineering and innovation. Our operations are driven by passion, compliance & regulation, and extensive training. Striving to fully reflect the vivid aroma and flavor profile each plant has to offer, we take pride in our reputation of vibrant, pure, and flavorful results. We love what we do, and take the time to concoct each product to its fullest potential.

HIGH GRADE CANNABIS

WAYPOINT RELATIONSHIPS CREATE QUALITY

One-on-one relationships with our customers are very important to us. When you make an investment with Waypoint, you are backing our boundless quest to create superior quality products to be distributed statewide. You become the next part of our brand's stories!

With our transparent supply chain, high values,
and consistently reliable products, our goal is simple:

Provide the consumer with the best high, everytime.

ErrlKing wants to change the way the world views concentrates with our responsible, health conscious, and quality made products. We work alongside our network of growers to ensure our extracts are made with the best material, and are harvested & handled at peak time for optimal results.

Through education, we will dissolve the veil of mystery around extracts, while continuously looking for new avenues to improve our product.

ICE HASH LIVE ROSIN CONCENTRATES

Waypoint Processing uses Bruteless stainless steel barrels and a variety of different micron bags to process fresh frozen material from our partner farms. We wash and freeze dry the material before pressing it between two heated plates and double micron press bags for our live hash rosin.

KEY FEATURES:

- Exotic strains tracked down by our experienced terp hunters
- Terpene rich
- All product kept cold to preserve overall integrity of their terpenes and potency
- Cold cured for a minimum of 1-2 weeks for optimal flavor and aroma

1 gram pucks
8 or 16 unit cases available

ERRL KING CONCENTRATES

ErrlKing produces many types of concentrates derived from multiple extraction methods, in a variety of strains and flavors. It begins with great flower, our crew of terp hunters visit grows and hand pick specific strains for the different processes.

Key Features:

- Retains original terpenes and aromas
- Live resin, badder, sugar, crumble, and diamonds, among others

1 gram pucks or 3 gram baller buckets
16 units per case

LIQUID DIAMOND CARTRIDGES

510 thread cartridge filled with high terpene full spectrum extract (HTFSE) made from fresh frozen material acquired by our Terp Hunters and strategic farms. All carts made with a closed vesseled decarboxylated live resin to preserve terpenes.

Key Features:

- Unparalleled cryogenic extraction process
- Proprietary blend of propane/butane for maximum terpene yield
- High terpene-rich extract separating diamonds from the live resins
- Rotating flavors based on availability

1 gram cartridges
32 units per case

CRUMBLE CARTRIDGES

Referred to as “dabs on the go,” crumble cartridges have no added terpenes or thinning agent. These cartridges contain a liquefied version of what you’d find in our crumble concentrate jars, made using 100% Michigan craft cannabis.

Key Features:

- Unparalleled cryogenic extraction process
- A higher quality taste and experience
- Increased bioavailability
- Rotating flavors based on availability

1 gram cartridges
32 units per case

FULL SPECTRUM 2 PK GUMMIES

The ErreKing gummies you love, in a powerful two pack. More flavors to choose from at a higher dose.

Key Features:

- 25mg THC/gummy
- Made with full spectrum extract
- Offers full entourage effect
- Available flavors:
 - Sour watermelon
 - Blue raspberry
 - Sour pineapple
 - Purple punch crunch

(2) 25mg gummies per pack
50 units per case

FULL SPECTRUM GUMMIES

With our in-house proprietary formulation and fine tuned flavors developed in our flavor lab, our gummies are designed to mimic the essence of some of our favorite strains. Made with full spectrum live resin, these gummies are a delicious route to elevate all occasions.

Key Features:

- 10mg THC/gummy
- Made with full spectrum live resin
- Offers full entourage effect
- Available flavors:
 - Purple punch crunch
 - Tropicana cookies
 - Berry gelato

(10) 10mg gummies per pouch
50 units per case

Key Features:

- 0.75 gram pre-rolls
- Infused with Live Resin concentrate
- Rotating flavors based on the gardens we work with and their recent harvests

(2) 0.75 gram joints
25 units per case

CRAFT CONCENTRATES

Every extract we create is on its own unique handcrafted journey. **The journey of every plant is not the same, why should the extracts be?** We use dry ice pellets to get down to subzero temps during every solvent extraction and use ice and freezing cold water during our solventless based extracts.

Each extract is monitored for our inhouse operating procedures and each journey is a little different depending on the type of material, the quality of material, and the type of herb we are extracting.

FROM THE VAULT

Like a fingerprint, each cannabis strain has its own unique smell and flavor profiles. Currently in our vault, we have over 60 varieties of hydrocarbon and solventless extracts in various stages of the curing process.

meg & zen

MADE WITH LOVE

Meg & Zen is a way of life. As homesteaders, Meg and her family live as much off of their land as possible. Planting, growing, raising, and creating everything from home and within their community. Meg & Zen products aim to support the health and wellness of the good people of Michigan who use cannabis as medicine.

RSO EXTRACT

Available in THC RSO, CBG RSO, and 1:1 THC/CBD RSO. Made from whole plants grown with love on Meg's land and other local farmers, RSO is a concentrated and potent medical cannabis extract. Containing a full spectrum of unrefined rich whole plant metabolites, cannabinoids, and terpenes, this product provides potent pain relief. Sold in easy to read syringes for control of medicinal dosage.

Key Features:

- Ethanol extraction
- RSO is sourced from Indica dominant plants
- All Michigan grown
- THC, CBD, and CBG are locally sourced from Michigan hemp farmers

1mL syringe
28 units per case

ZEN BALM

Made with a combination of RSO, and over a dozen intentionally, carefully hand-picked herbs, flowers, and roots. This full spectrum balm delivers you powerful relief for inflammation, aches, and pains.

Key Features:

- All Michigan grown
- Local high quality sourced herbs
- No dye or artificial fragrance
- Whole plant steeped herbs
- Tea tree + eucalyptus essential oils are added for antibacterial purposes
- For the healing of muscle, bone, and tissue
- Safe for the whole body
- Whole plant RSO, not made from distillate

2oz units
24 units per case

ZEN SPICE BALM

Original Zen Balm formula with additional herbs and spices, and a natural anesthetic.

Key Features:

- Anti inflammatory and natural anesthetic
- Whole plant clove and cinnamon
- 6 added essential oils

2oz units
24 units per case

IMMUNE SUPPORT TINCTURE

Meg & Zen's Immune Support Tincture is a brain tonic & sleep inducer that offers relief of anxiety, stress, and insomnia, while also aiding in melting away head and body aches.

Key Features:

- Full spectrum
- 25 servings per bottle
- Activation time: 15-30 minutes

30mL bottle
24 units per case

RSO HONEY STICKS

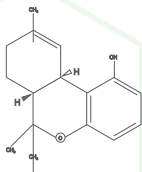

A convenient way to medicate- Infused honey can be enjoyed directly from the straw, or added to hot beverages and foods, at home or on the go.

Key Features:

- Full spectrum
- Naturally sweet
- Locally sourced honey

(5) 10mg honey sticks per pack
50 units per case

BUDTENDER EDUCATION

Budtenders are the face of cannabis, and the ones who heavily influence consumers towards which products to select. In order to provide an informed experience, we make it a priority to offer education and support so consumers can walk away with a product that best fits their needs (and wants)!

WE ENCOURAGE BUDTENDERS TO REACH OUT WITH ANY QUESTIONS OR UTILIZE THE FOLLOWING EDUCATIONAL EVENTS WE PROVIDE:

Facility tours and informative events

Onsite retailer vendor days

Proprietary resources

Educational assistance

Modern Harvest is all about experiences, either with our own products or in collaboration with other brands. Our desire to form authentic relationships within the industry is our driving force.

LIVE RESIN VAPE KIT

Modern Harvest 1 gram live resin vape cartridges are designed for modern consumption. Each combination of terpenes and cannabinoids is intentionally formulated to offer a tailored experience.

Key Features:

- Made from small farm, low yield flower
- Full spectrum, live resin concentrate
- High performance vape cartridge with 510 thread
- Robust terpene and cannabinoid profiles

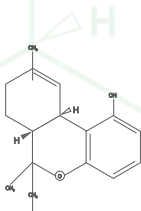

Vape kits
16 units per case

www.waypointprocessing.com

The soda that knows ya! Award-winning beverage brand that uses nanotechnology for quick acting, great tasting THC infusions.

DR. J. TERPS BEVERAGES

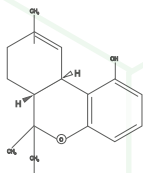

Carefully concocted terpene infused blends refresh your soul with every swig, leaving you feeling uplifted and lively. Pleasantly effervescent, these sodas help you unwind from the inside out allowing you to enlighten your senses and embrace a light sociable buzz.

Key Features:

- Available in full spectrum Super Lemon Hazy Lemonade, Orange Soda, Root Beer, and THC free Root Beer
- Nanoemulsion blend
- Immediate onset of effect
- Higher absorption and maximized bioavailability

12oz can
24 cans per case

NANOEMULSIONS

Oil based products carry limitations as they don't effectively absorb into the body. After all, humans are 60% water and we all know oil and water don't mix! Most of the product goes unused and is flushed out of the body.

Through a process called nanoemulsion, we are able to create a water compatible version that offers an immediate onset of action, higher absorption, maximized bioavailability, and potent therapeutic effects at much lower doses.

Compounds are broken down into tiny particles below 100 nanometers (1 billionth of a meter). This size allows the cannabinoids to pass through the lining of your mouth and throat right away, and into your bloodstream through capillaries right under the surface.

Makers of premium extracts, solventless hash, fire edibles, and incredible pre-rolls.
Cultivators and winner of 3 High Times Cannabis Cup awards.

CANNONYMOUS HONEY STICKS

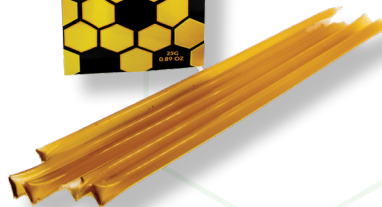

A convenient way to medicate- Infused honey can be enjoyed directly from the straw, or added to hot beverages and foods, at home or on the go.

A naturally sweet treat anyone can eat.

cure^{of}_{the} earth

Cure of the Earth grows outdoors on four acres, in native soil and Hugel beds. Utilizing Jadam, KNF, bio-mimicry, and Beyond Organic practices. Making teas and ferments with ingredients sourced from our fields, forest, and swamplands. We propagate our own seeds to keep the genetics adapting to the farm's terroir. The farm is entirely powered by solar and wind energy.

ORGANIC CONCENTRATES

All flower grown in organic greenhouses, entirely empowered by the sun with minimal human intervention. Extracted directly from our fresh frozen fall harvest flower, our live resin concentrates hold an extremely high and rich sungrown terpene profile so you can get the true essential aroma of the plant.

Key Features:

- Live resin
- Small batch harvests
- Fully organic fresh frozen flower

1 gram pucks
28 units per case
